Who is *Barbi* ?

Carrozzeria Barbi was established in 1905 by Galileo Barbi and has established its self as Italy's premium coachbuilder located in Mirandola, only 20 minutes from Modena the world famous centre of luxury car-making industry.

After celebrating its centenary the company's latest achievement is a new model range called GALILEO (named after the founder) which confirms the excellence of *Italian flare* for design and passion for quality & style with stainless steel used in many parts of the structure to secure a long time resistance against corrosion. It also marks a significant milestone as a synergy between MAN and Barbi across it's complete product range.
